

GastroCoin (GTC)

White Paper v 2.1

GastroCoin as a currency is the basis of international cooperation in the gastronomic world. By gastronomy is meant the entire chain from meat farmers, growers, wine and beer producers to restaurateurs and sommeliers further on to you as a restaurant guest and to you who buy wine, beer and food on the internet.

In order to offer a stable and secure payment solution and a stable network, GastroCoin offers masternode solutions with generous rewards.

Gastro Coin's main areas of activity and uses:

- You as a consumer can buy wine, beer and other beverages on the Internet shops and pay with GastroCoin (GTC).
- Restaurants can pay their food suppliers (farmers and growers) directly with GastroCoin (GTC) without unnecessary fees.
- Offer restaurants a payment solution where the guest pays their bill with GastroCoin (GTC).
- Reward restaurants and give awards to Restaurant of the Year, Beverage Store of the Year on the internet, Beer of the Year, Wine of the Year, etcetera by letting restaurant visitors vote for their main experiences, whether you are a happy amateur, foodie or professional restaurant taster. Everyone's opinions count!
- GastroCoins social media accounts where foodies can share their food experience. A huge trending market all over the world. We are working with a special agency.
- www.gastrocoin.net will be a member site where food, wine & beer lovers can share and publish their food experiences in photos and reviews.
- You will be able to buy posters, paintings and photos of food & wine at www.gastrocoin.net own gallery and store. Payment method GastroCoin (GTC).
- You will be able to buy kitchen tools, wine glass etc at www.gastrocoin.net own gallery and store. Payment method GastroCoin (GTC).
